What is MMSC Outsourcing?

MMSC outsourcing is the process to provide new startup GSM carriers with the functionality of multimedia short messaging without the need of buying a MMSC themselves. Its ideal to save cost & resources in the startup phase. Global Network Inc. provides the service of an MMSC and the needed interconnections.

How does the MMSC Outsourcing service help the operator doing more business?

The MMSC outsourcing service allows the emerging operator to concentrate on his main business without having to take care of MMS as a service. Especially in startup phases technical resources are tightly bound. MMSC outsourcing frees up your resources and allows you to postpone the investment into your own MMSC to the time you can really afford it. Furthermore MMSC Outsourcing can be combined with various other Global Networks Inc. services such as SMSC outsourcing, SMS Proxy and SS7 Transit service allowing you to offer an even broader palette of services.
